Mohali, Punjab - 140301, India

Software Engineer with hands-on experience in building scalable backend systems and AI-driven platforms. Led development of production-grade APIs and workflow automation systems, delivering up to 70% operational efficiency gains. Strong foundation in system design, performance optimization, and cloud deployment.

SKILLS

- **Programming Languages:** Python, JavaScript, C++, SQL
- **Backend Development:** FastAPI, Django, Flask, RESTful APIs, Asynchronous Programming, Celery
- **Frontend Development:** React.js, HTML5, CSS3
- **Databases & Caching:** PostgreSQL, MySQL, MongoDB, Redis
- **Cloud & DevOps:** AWS, Oracle Cloud (OCI), Docker, Git, CI/CD
- **Concepts:** Data Structures & Algorithms, OOP, System Design Fundamentals, API Integration

WORK EXPERIENCE

Ryntra Tech Pvt. Ltd.

Jan 2026 - Present

SWE Intern

- Shipped AI-powered career platform features using React + FastAPI, supporting job aggregation and real-time interview workflows.
- Built and optimized asynchronous REST APIs, reducing backend latency by ~35% in production.
- Deployed LLM + STT pipeline (Gemini, Deepgram) for automated resume scoring and interview evaluation (~90% transcription accuracy).
- Deployed and maintained the application on Google Cloud Platform (GCP), managing services, database, and CI/CD workflows

Internshala

Jul 2024 - Aug 2024

Internshala Student Partner

- Promoted Internshala programs and internship drives across campus and social media channels.
- Organised awareness campaigns, webinars, and referral activities to increase student participation.

RELEVANT PROJECTS

Swasthya Setu (Team Project - Role: Full Stack Development)

Healthcare Workflow Web Assistant

- Built and shipped a full-stack healthcare platform (Django, React, REST) enabling assistive screening and structured report generation.
- Designed scalable backend handling 1K+ records with role-based access control and secure data workflows.
- Automated clinical documentation using AI-assisted drafting, reducing manual effort by ~20%.
- Developed voice-enabled follow-up system with API-driven orchestration and AI summarization.

MediMind (Team Project/Full Stack Development)

Smart AI Inventory Management System

- Developed a full-stack inventory system (React, Django, PostgreSQL) providing real-time stock visibility and analytics.
- Automated OCR → reconciliation → dashboard pipeline, reducing manual stock entry by ~70%.
- Engineered backend services for sales tracking, low-stock alerts, and multi-role access control.
- Implemented ML-based demand forecasting and reorder recommendations to optimize stock availability.

EDUCATION

Thapar Institute of Engineering and Technology, Patiala

B.E Computer Engineering

June 2024 - Present

Current Aggregate - 8.26/10

Thapar Polytechnic College, Patiala

Diploma in Computer Science and Engineering

Aug 2021 - Jun 2024

Final Aggregate - 78.5%/100

ACHIEVEMENTS & CERTIFICATIONS

- | | |
|---|----------|
| • Drishti NE - 2026 Hackathon Finalist | Feb 2026 |
| • Oracle Cloud Infrastructure Foundations Associate Certification | Feb 2026 |
| • SabkaAI: AI for Inclusion Hackathon Finalist | Jan 2026 |
| • Cyber AI Hackathon University of Derby Innovation Award Winner | Nov 2025 |
| • SatHack 2025 Finalist | Nov 2025 |
| • 4 Course Certifications from Meta, Coursera in Version Control, HTML, CSS and JS foundation | Dec 2023 |
| • NIELIT 6 week Summer Training in AI/ML | Sep 2023 |
